FMC Technologies Awarded $297 Million Contract for Subsea Production Systems for Shah Deniz Stage 2 Project

June 22, 2015 4:09 PM ET

HOUSTON, June 22, 2015 /PRNewswire/ -- FMC Technologies, Inc. (NYSE: FTI) announced today that it has received an order from BP Exploration (Shah Deniz) Ltd. to supply subsea production systems for Well Clusters 3-5 of the Shah Deniz Stage 2 project in the Caspian Sea. The order has an estimated value of $297 million in revenue and is in addition to the initial order for Well Clusters 1-2 received in 2014 from BP, the operator of the Shah Deniz Stage 2 project. The Shah Deniz field is located offshore in the Azerbaijani sector of the Caspian Sea, approximately 100km south of Baku.

"This award continues our multi-year support for BP on this project," said Tore Halvorsen, FMC Technologies' Senior Vice President, Subsea Technologies. "Our close cooperation on this project has accelerated the transition to the manufacturing stage and enabled us to reduce the lead time delivering the project."

FMC Technologies, Inc. (NYSE: FTI) is the global market leader in subsea systems and a leading provider of technologies and services to the oil and gas industry. We help our customers overcome their most difficult challenges, such as improving shale and subsea infrastructures and operations to reduce cost, maintain uptime, and maximize oil and gas recovery. Named by Forbes® Magazine as one of the World's Most Innovative Companies in 2013, the company has approximately 20,000 employees and operates 24 production facilities in 14 countries. Visit www.fmctechnologies.com or follow us on Twitter @FMC_Tech for more information.

This release contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. The word "estimated" and similar expressions are intended to identify forward-looking statements, which are generally not historical in nature. Such forward-looking statements involve significant risks, uncertainties and assumptions that could cause actual results to differ materially from our historical experience and our present expectations or projections. Known material factors that could cause our actual results to differ from those in the forward-looking statements include the Company's ability to successfully deliver, and BP's acceptance of, the subsea products ordered. For additional information regarding known material factors that could cause actual results to differ from projected results, please see the Company's Annual Report on Form 10-K for the year ended December 31, 2014, as well as its other filings with the Securities and Exchange Commission. The Company cautions you not to place undue reliance on any forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligation to publicly update or revise any of its forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise.
